## **DETAILED ACTION**

### ***Status***

1. Claims 1-2, 7-11, 16-22, 27-30, and 33-36 are currently pending in this application.

### ***Priority***

2. Currently, no foreign priority has been claimed. This application is a continuation in part of application 10/722350 and claims priority to US provisional application 60/525,103

### ***Continued Examination Under 37 CFR 1.114***

3. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after allowance or after an Office action under *Ex Parte Quayle*, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114. Applicant's submission filed on 5/13/2009 has been entered.

### ***Information Disclosure Statement***

4. The information disclosure statement (IDS) submitted on 5/13/2009 was received. The submission is in compliance with the provisions of 37 CFR 1.97 and 37 CFR 1.98. Accordingly, the information disclosure statement has being considered by the examiner.

***Drawings***

5. The drawings submitted on 9/19/2005 are in compliance with 37 CFR § 1.81 and 37 CFR § 1.83 and have been accepted by the examiner.

***Claim Rejections - 35 USC § 101***

6. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

7. Claims 1-2, 7-11, 16-18 and 33 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

Specifically, the process steps should (1) be tied to another statutory class (such as a particular apparatus) or (2) transform underlying subject matter (such as an article or materials) to a different state or thing. If neither of these requirements is met by the claim, the method is not a patent eligible process under *35 USC § 101* and has been rejected as being directed towards non-statutory subject matter.

In this instance it is unclear what particular apparatus is performing the measuring, multiplying or dividing steps.

***Allowable Subject Matter***

8. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claims 1-2, 7-11, 16-22, 27-30, and 33-36:

Please see notice of allowability mailed on 2/20/2009. It should be noted that the aforementioned rejections should be addressed before the application can be allowed.

***Conclusion***

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Mahony et al. (USPN 7,215,212) teaches an apparatus for monitoring temperature and method for operating same.
